

ALIMAXX-ES™

Fully Covered Esophageal Stent

The only fully covered esophageal stent available in **12, 14, 16, 18** and 22 mm diameters allowing for multitude of patient specific solutions

Laser cut design produces virtually no stent foreshortening or elongation resulting in an accurate stent placement

Proximal nylon suture for use in repositioning or removal of the stent immediate post-placement

The +5 mm proximal flare and +3 mm distal flare provide outstanding mucosal wall contact

12 mm Diameter

14 mm Diameter

16 mm Diameter

18 mm Diameter

22 mm Diameter

Optimal radial force, combined with small diameter sizes, provide an ideal solution for patients who require stent placement near the upper esophageal sphincter

Proprietary anti-migration struts face distally and are designed to minimize migration

The first FDA cleared fully covered esophageal stent

Smartzone™ technology allows for a firm mid-body with soft flared ends intended to maintain patency while reducing healthy tissue trauma
