ONCOLOGY
SOLUTION PROVIDERS - 2019

Cianna Medical, powered by Merit Medical, has been named a “Top 10 Oncology Solution Provider” by Healthcare Tech Outlook, an innovation-focused healthcare publication for health system decision-makers. The Top 10 providers award was announced online July 22nd. A special print edition published August 1st featured Merit’s innovative technologies for brachytherapy and tumor localization.

The Top 10 Oncology Solution Providers 2019 is an annual listing of exceptional solution providers who offer innovative solutions that will help conduct cancer research, deliver cancer treatment, improve patient care and screen for cancer.

The selection panel, comprised of senior oncology executives

SAVI[®] Brachy

including Healthcare Tech Outlook editorial board members, reviewed the top companies in the healthcare oncology space and shortlisted those at the forefront of tackling industry challenges.

SAVI[®] Brachytherapy is a safe, low-toxicity alternative to traditional whole breast radiation therapy. This strut-based, single entry approach to brachytherapy maximizes ease of use during placement while providing unparalleled radiation dose customization in as few as 2 days.

The SCOUT[®] Radar Localization system is an advanced wire-free localization system designed to address the challenges of wire localization for breast tumors. SCOUT eliminates the need for wires, using advanced radar technology to improve the precision and predictability of marking tumors, biopsy sites and lymph nodes prior to neoadjuvant therapy and surgery.
