Merit Medical Receives FDA Clearance for SCOUT Bx[™] Delivery System

SCOUT Bx is the first wire-free breast localization solution that can be deployed at the time of stereotactic or MRI-guided biopsy.

Fred Lampropoulos
Founder, Chairman of the Board, CEO,
Merit Medical

"Placement at the time of biopsy lessens the burden on cancer patients and benefits healthcare providers. The SCOUT Bx system expands this important treatment option to more patients. Merit is proud to be the first to market with this solution," said Fred P. Lampropoulos, Merit Medical's Chairman and CEO.

SCOUT Mini Reflector: Expanding Utility to Treat More Patients

With a 33% smaller profile than the standard Reflector, the SCOUT Mini Reflector has an increased clinical utility for localizing smaller targets, soft tissue including lymph nodes, and does not interfere with MRI studies. The SCOUT Mini Reflector is currently in limited release and targeted for full release in early summer. **WATCH THE VIDEO** >
